

3Ts Benefiting from Booming Markets

Since the second quarter of 2006 we have seen dramatic business increase for PD and RD models, mainly in the Arabian Gulf and Eastern European Countries. Existing customers provide new business from established markets with orders for the marine series III incinerator throughout the same period.

Consultancy Projects

3Ts International Dubai division has recently been awarded two large contracts for the design and project management of hazardous waste facilities in Oman and Qatar. The contracts are scheduled to run through to August 2008, followed by the procurement of suitable technology and its installation scheduled for 2009 and final hand over by February 2010.

Developments

- New Manufacturing Base in Canada
- New V1500 Animal carcass Incinerator
- New Control System Software
- Large Naval Contract Won

3Ts Opens for Business in Canada

Due to significant market development and high demand for 3Ts technology in Canada we have registered and formed a new company, 3Ts Canada Limited, which is now operating out of Winnipeg, Manitoba.

3Ts products will be manufactured in Canada under a license agreement through the new company. With the advent of 'Made in Canada' products, our Canadian customers will continue to receive the best available technology, shorter delivery times, and reduced costs.

From 1st May 2008 all projects in Canada will be quoted in Canadian Dollars, any existing proposals will be re-quoted as soon as possible.

The Company's Managing Director is Mr. Richard Stoton, who brings to this position a depth of experience in the incineration field and a reputation for integrity and delivering a promise.

3Ts will be offering turn key contracts for the design, supply, installation and operator training of its products throughout Canada. Utilizing existing local expertise where appropriate combined with expert support from the parent company.

Our immediate goal is to serve the Canadian market; at a later date we will be developing our business to include the rest of North America.

New and existing customers wishing to update their quotations or submit new enquire should contact Richard at the following email address:
"3ts_canada@mts.net"

Repeat Order for RD's

In 2006 3Ts Dubai was awarded an order for seven RD200 Hospital waste incinerators worth £595,000.0 for installation in Iraq from The Ministry of Health in Baghdad.

After the successful completion and hand over of the first contract the customer has awarded an order for an additional 4 x RD200 and 4 x RD500. This contract is scheduled for completion by December 2009.
